Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Saturday 18 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Increasingly cloudy tonight with rain spreading eastwards.

This Evening and Tonight:
Becoming more generally cloudy and wet overnight as extensive cloud and outbreaks of rain edge eastward. A few heavier bursts possible towards the Pennines. Staying on the mild side given the cloud cover. Minimum temperature 10 deg C (50 deg F).

Sunday:
Perhaps dry in the far east at first, but soon becoming generally cloudy and wet, with rain stalling over the region to give some slow-moving heavy downpours later. Maximum temperature 21 deg C (70 deg F).

Outlook for Monday to Wednesday:
Becoming drier and brighter on Monday, continuing into Tuesday, but with winds gradually picking up. Generally breezy on Wednesday, with a spell of rain followed by showers. Temperatures falling slightly.
